A DREAM CAME TRUE
IN TORONTO

The world's largest cinema complex in the world's largest shopping complex

18 SCREENS AT EATON CENTRE

A showcase for fine films from around the world

Cineplex is 'a dream that came true', not only for us, but for every producer whose well-received picture did not, for economic reasons, get a Canadian showing. For every distributor who wished for a smaller auditorium in which to extend his run, or give a good film a chance to catch on. For every discerning moviegoer who wondered why so many internationally-lauded films never make it to Toronto. With eighteen auditoria from 50 to 130 seats, Cineplex makes a lot of things possible. Our computerized box office system allows patrons to buy tickets in advance for each day's performances. A comfortable lounge and restaurant seats nearly two hundred people. We're at the north end of the fabulous Eaton Centre in downtown Toronto. Indoor parking and the subway right at our door. Cineplex is indeed 'a dream that came true'.

AT EMERY WE NEVER MET A PACKAGE WE DIDN'T LIKE.

Unlike a lot of other people in air freight, Emery doesn't discriminate against a package because of its size, weight or destination.

So it's no big thing for us to move big things like gears for earthmovers, valves for oil wells as well as helicopter blades. And it's no big thing for us to move them as quickly and efficiently as we move little things.

In fact, anything goes with Emery. And it goes anywhere. Because we're on more planes than anyone else in air freight. With reserved space on key flights of every major and minor airline that carries packages, plus commuters, air taxis and a fleet of chartered planes.

So we can go places no one airline or air freight company can go.

The next time you're faced with a problem of huge proportions, call the heavyweight in the business. Emery.

The Canada Council, created by an Act of Parliament in 1957, revised in 1977, to promote the arts, carries out its work mainly through a broad program of grants and services to artists and arts organizations. The Council also has some responsibility for promoting Canadian culture abroad, and administers the Canadian Commission for Unesco and special programs financed by private donations. The Council reports to Parliament through the Secretary of State and appears before the Standing Committee on Broadcasting, Films and Assistance to the Arts.

Film Production Grants

Applicants must have produced at least one film or have established a professional reputation in the visual arts. Applicants must provide supporting footage in the same millimetre format to be used in the proposed production.

Projects being produced or sponsored by other federal film agencies are not eligible for Canada Council grants.

The maximum amount available for a single film production is $25,000 to cover total or partial production costs. Applicants receiving grants of less than the amount requested may reapply for supplementary funds for a total not exceeding $25,000.

Applications must be received by a certain date in order to be considered at the next Canada Council meeting: March 15 for announcement in June; June 15 for announcement in September; September 15 for announcement in December; December 15 for announcement in March.

Other Grants

Filmmakers may be eligible for assistance through other grant programs administered by the Canada Council. These include: Arts Grants "A"; Arts Grants "B"; Short Term Grants; Project Cost Grants; Travel Grants; the Explorations Program.

Objects and Powers

(1) The objects of the Corporation are to foster and promote the development of a feature film industry in Canada, and without limiting the generality of the foregoing, the Corporation may, in furtherance of its objects

(a) invest in individual Canadian feature film productions in return for a share in the proceeds from any such productions;

(b) make loans to producers of individual Canadian feature film productions; and

(c) advise and assist the producers of Canadian feature films in the distribution of such films and in the administration functions of feature film productions.

(2) For the purposes of the CFDC Act, a "Canadian feature film" or "Canadian feature film production" is a feature film or feature film production in respect of which the Corporation has determined

(a) that the completed film will, in the judgment of the Corporation, have a significant Canadian creative, artistic and technical content, and that arrangements have been made to ensure that the individual copyright in the completed film will be benficially owned by an individual resident in Canada, by a corporation incorporated under the laws of Canada, or a province, or by any combination of such persons: or

(b) that provision has been made for the production of the film under a co-production agreement entered into between Canada and another country.

(3) The Corporation shall not be regarded as a partner in any film production in which it may invest and its liability shall be limited to the amount of its investment in the production.

(4) The Corporation shall, to the greatest possible extent consistent with the performance of its duties under this Act, consult and co-operate with departments, branches and agencies of the Government of Canada and of the governments of the provinces having duties related to, or having aims or objects related to those of the Corporation.

Programs

The Corporation assists Canadian feature film producers by providing development, interim and investment financing for films that meet its criteria on Canadian content, financing, completion and distribution.

The Corporation assists Canadian distribution companies by supplementing their budgets in the launching of Canadian feature films released in Canadian theatres.

The Corporation assists Canadian feature film producers in developing screenplays. Its investment could cover the cost of securing an option on a Canadian novel, retaining an experienced screenwriter and certain other expenses relating to the project.

Co-Productions

Since February 1976, the CFDC has been designated by the Secretary of State as administrator of co-production treaties between the Government of Canada and participating countries. Canada has co-production agreements with the United Kingdom, France, Italy, Israel and Germany.

The treaty with France specifies a percentage limit of 80:20 for the proportion of involvement between the majority and minority partners in the co-production. The agreements with the United Kingdom, Italy, Germany and Israel specify 70:30.

The terms of the co-production require that the artistic and technical input of each country, as well as the financial participation, should reflect its proportionate involvement in the film. Also spelled out in each co-production treaty is the minimum participation of the minority partner. The finished film is considered a national film by both countries.

As administrator, the CFDC receives all applications, studies and evaluates them and makes recommendations to the Secretary of State. When a film has been completed the producer must provide an audited statement of costs and screen the film, after which a final recommendation is made to the Minister. All co-production applications are forwarded to Pete Legault at the CFDC's Montreal office.

The Ontario Arts Council offers various forms of assistance in film areas to artists in the province, and the following brochures are available from its offices:

Film and Photography Grants

Filmmakers may apply for up to $7,000 for short, experimental, original 16mm films (full-time film students are not eligible). Senior grants up to $20,000 are available to experienced filmmakers. All applications must be supported by a 16mm film.

Writers may apply for up to $3000 to write original, creative material for the screen.

Sponsors of a film festival or seminar may apply for funds to cover fees of visiting filmmakers to participate in workshops and to lead discussion groups, and to cover a portion of administrative costs.

Franco-Ontarian Grants

Franco-Ontarian filmmakers may apply for up to $13,000 in two separate categories.

1) pre-production costs for short films

2) financial support for apprenticeship with a recognized professional filmmaker.

Arts/Education Grants

A filmmaker wishing to work in a school is required to conceive the project, find a school and negotiate a fee. The filmmaker and the school make a joint application for a grant of up to three-quarters of the filmmaker's fee to a maximum of $1,500; a maximum of $200 for project expenses; and up to $600 for travel and living expenses if the project is more than 100km from the filmmaker's home.

Film works both sides of the lens.

Film is good business, from both sides of the camera. Kodak continues to promote the strength of using film as a corporate communications tool to the Canadian business community. That's one side. And we're on your side too, not only because we produce high-quality film products and processes, but we also continue to promote the communication advantages of film to businesses.

As part of this promotion, Kodak had a film produced on behalf of the motion picture industry about making corporate films and we will be showing it to as many business people and groups as possible.

This production "Film is Good Business" is available to film producers at nominal cost. To arrange a complimentary screening, contact your local Kodak Technical Sales Representative or write Kodak Canada Ltd. for more information.

I would like to see the Kodak film about making films.

CAPAC: KEEPING SCORE FOR CANADIAN FILM MUSIC

CAPAC is Canada's largest and longest established performing rights organization. It's been around for over 50 years — a lot longer than the film business in Canada! Its main job is to collect performing rights royalties from the people who use music, and distribute the money to the people who compose and publish it.

CAPAC composers and publishers produce nearly all the music for made-in-Canada motion pictures (and for the majority of Canadian television shows, too). And many of CAPAC's 6,500 members are commissioned to write scores for films made in Europe and the United States.

The list we've printed here? Just a handful of the hundreds of films for which some of our members have written the music. We're proud of them — and we're keeping score of their credits.

AMPIA consists primarily of 20 active member companies — corporations engaged in the production and processing of motion pictures. Associate members are individuals engaged in the arts and crafts of the industry or with a special interest in film & VTR. Corporate affiliate members are firms and institutions with special interests in film (for example, manufacturers and suppliers). A monthly bulletin, in English, goes to members and associates. Seminars and workshops (e.g., the Banff Seminar) are held several times a year; and the association sponsors an annual film festival.

Pioneer Of The Year Award:
In 1952 the C.P.P. marked the Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre — the Electric of John Schulberg on Cordova Street, Vancouver, which he opened in the fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schulberg, Jule Allen of Toronto, George Ganetakos of Montreal, A.J. Mason of Springhill, Nova Scotia, L. Ernest Ouimet of Montreal, and Fred G. Spencer of Saint John, New Brunswick, were honored as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days. Spencer passed on shortly before the banquet and Schulberg, Ganetakos and Allen have died since.

The next year, the Pioneer of the Year Award was inaugurated. Those who have received it to date are:

The license fees which CAPAC may lawfully sue for or collect must be approved each year by a Board appointed by the Government of Canada.

The following fees have been filed by CAPAC for year 1979. At time of publication they still require Board approval.

Aims and Objectives

The Council of Canadian Filmmakers is an umbrella organization which represents, through its individual and organization members, 14,000 film directors, writers, actors, technicians, and production personnel in the English Canadian film and television industry.

CCFM was formed in March, 1973 in response to the growing problems of the film industry. Speaking on behalf of its members, CCFM has presented numerous briefs and interventions to all three levels of government in Canada, and has spoken out in public and private forums on the need to improve the situation of the English Canadian film industry.

In the past year, CCFM has continued to press for legislated quota and levy systems to ensure that Canadian films have reasonable access to Canadian theatres, and to ensure that a reasonable percentage of Canadian box office earnings are returned to Canadian production. The Council has also undertaken extensive research in the area of Pay-TV.

The objective of the Council of Canadian Filmmakers is to promote the development of an indigenous English Canadian film industry by: (1) informing government and the public of the situation in the film industry in English Canada; (2) presenting a unified industry voice in negotiations with government, in public forums and in the press; (3) lobbying for the conditions which will make an indigenous film industry viable in Canada.

Each motion picture theatre in Canada, whether individual or a chain, is obligated to pay to Performing Rights Organization of Canada Limited an annual licence fee for the right to perform music in its repertoire, or the repertoires of foreign performing right organizations represented in Canada by P.R.O. Canada. The licence fees have been collected from theatres on behalf of writers, composers and music publishers since 1966.

The fees collected must be approved annually by the Copyright Appeal Board in Ottawa. The courts uphold the fact that it is unlawful to operate a motion picture theatre in Canada without a P.R.O. Canada licence for the performance in Canada of its dramatico-musical works during the calendar year 1979. Tariffs are printed in "The Canada Gazette" and the one pertaining to theatres is:

THEATRES

For a theatre licence covering operations at any time during the year, the annual fee is charged on seating capacity as follows:

Seating Capacity	Annual Fee
Up to 499 seats	$12.00
500-999 seats	24.00
1,000 seats and over	42.00

The seating capacity of Drive-In Theatres shall be three times the maximum number of automobiles which may be accommodated at any one time.

Theatres operating three days or less per week shall pay one-half of the above rates.

For theatres operating for less than 12 months in each year, the fee payable shall be reduced by 1/12th for each full month during the year in which no operations occur.

Minimum fee, $10.

A licence obtained under this item of the tariff shall not be deemed to authorize any concert, recital of classical music or live performance when the exhibition of one or more films is not an integral part of the program. These performances shall be licensed under Item Number 5 of this tariff.

Film Studies is an academic discipline concerned with the history, criticism, theory and practice of the cinema both as an art form and as a documentary record of our time. The cinema is a source of pleasure and knowledge, and its study should form a part of one's cultural education. The program will enable the student to develop a critical faculty appropriate to intelligent understanding of the cinema by approaching its study as a scholarly activity which rewards systematic research, analysis and exposition.
No practical film-making will be involved in this program.
Ten courses will be offered in 1978-1979, leading to a B.A. with a Major in Film Studies.

World's First in TV

The first multilingual station in the world ever to be granted a government licence to operate in the public sector was given last month to Multilingual Television (Toronto) Ltd. by the Canadian Radio and Television Telecommunications Commissions (CRTC).

The decision comes at a time when the CRTC considers multilingual groups and their needs of prime importance to the national unity push. Applicant Dan Iannuzzi, President of Mulilingual Television (MTV) says the granting of the licence supports the government's multicultural policy and will help those ethnic groups, now represented by their own station, to work closer to the mainstream.

Iannuzzi, founder of Canada's Italian daily Corriere Canadese, has been

Canadian Academy Awards proposed by CAMPP

Plans for an Academy Award style voting system in the Canadian movie industry will be discussed at a general meeting Jan. 22 at the Sutton Place Hotel in Toronto.

Initiated during last year's Canadian Film Awards by the Canadian Association of Motion Picture Producers, the new system would be built on peer group selection of nominees rather than the pre-selection procedure used in the past by the CFA. Editors would nominate editing finalists, cameramen would nominate cinematographers, and so on. This preliminary voting stage would probably have a wider base, too, with entered films being shown at various centres across the country, not just in Toronto.

Response to the Academy idea has been enthusiastic, says Andra Sheffer, who is helping co-ordinate the planning stage from her office at the Festival of Festivals. The F of F hosted

The Academy of Motion Picture Arts and Sciences is an honorary organization composed of more than 4,000 motion picture craftsmen.

Since its founding in 1927, the organization's stature has grown internationally until today the Academy provides unparalleled incentive for higher levels of technical and professional achievement among all branches of filmmaking and has become the cinema's most effective single ambassador.

It is widely recognized that the motion picture is one of our most important sources of information, education and entertainment. This, and the constantly rising artistic merit of films produced throughout the world, are due, in part, to the Academy.

The Academy is a non-profit organization whose field of activity does not include economic, labor or political matters.

PURPOSES

The purposes of the Academy are to advance the arts and sciences of motion pictures; foster co-operation among creative leaders for cultural, educational and technological progress; recognize outstanding achievements; co-operate on technical research and improvement of methods and equipment; provide a common forum and meeting ground for various branches and crafts; represent the viewpoint of the actual creators of the motion picture and foster educational activities between the public and the film industry.

HISTORY

The Academy was organized in May 1927 as a non-profit corporation, chartered under the laws of California. Its 36 charter members included production executives and film luminaries of the time.

The Academy moved into its present quarters in Beverly Hills in 1975. The seven-storey building includes the Samuel Goldwyn Theater, Margaret Herrick Library, Administrative and Publications offices.

CANADIAN ASSOCIATION OF MOTION PICTURE PRODUCERS (CAMPP)

38 Isabella St.
Toronto, Ont. M4Y 1N1
(416) 964-6661

1978/79 Executive Committee
President: David M. Perlmutter
Secretary: Samuel C. Jephcott
Treasurer: G.C. Adams
Vice-Presidents: Harry Gulkin, Andre Link, William Marshall, Victor Solnicki

CAMPP was incorporated federally in 1973 to promote and foster the production of motion pictures in Canada; to develop and promote the interests of producers; and to provide its membership with technical and other information for the improvement of their knowledge, work and status. Membership is voluntary and is comprised of some sixty-five individuals whose activities represent the overwhelming majority of feature length motion pictures produced in Canada. Annual membership dues are $150.00 per individual at present and each member pays a production levy with respect to each film in which he performs a producing function. All members are Canadian citizens or permanent residents of Canada and have performed the function of a producer on at least one feature length motion picture.

The members elect the Board of seven directors annually and these directors become the officers of the Association. The Association has no full time staff nor is any member compensated for his services to the Association. Members are active on several standing committees including feature film co-productions, pay television, taxation, securities regulation, industry relations, marketing, professional development and education, and sundry others.

CAMPP is a member of the International Federation of Film Producers Associations.

Honorary Life Members
Any persons (not necessarily film editors) deemed worthy of such membership by unanimous approval of the National Executive. Any person honored with such membership may, if they wish, use 'cfe' (honorary) after their names on suitable occasions. Honorary Life Members, who have previously been members, are entitled to vote in the business of the Guild.

Members
Recognized film and sound editors with at least five years professional film editing experience in a full-time capacity. Members are entitled to use 'cfe' after their name on screen credits and publicity. (Sound editors may not use 'cfe' when picture editing unless otherwise qualified, as above.) Associates may qualify for 'member' status prior to five years, provided they are able to convince the current Executive of suitable abilities. Members who retire from the Guild, for whatever reason, are not entitled to use 'cfe'.

Associates
Recognized film and sound editors who are not eligible for 'member' status but are currently engaged in full-time professional film editing. Negative cutters may also qualify for associate status providing they can prove at least five years recent professional experience.

Affiliates
Any person directly concerned, in any capacity, with professional film editing. Included are assistant film editors, negative cutters, trainees, etc.

Corporate Affiliates
Companies or organizations concerned with any aspect of professional film editing (i.e. production companies, recording and re-recording studios, optical effects houses, manufacturers, suppliers, etc.). Also, a courtesy title accorded regular advertisers in "The Canadian Film Editor" magazine.

The Canadian Film Editor
. . . is a magazine published by the Canadian Film Editors Guild on behalf of members and the film industry as a whole. Usually, at least four issues per year are published and a copy is sent to each member with additional complimentary copies placed in various laboratories, sound studios and optical houses for general interest. Copies are also available on subscription.

A LIST OF MOTION-PICTURE TECHNICAL TERMS IN FIVE LANGUAGES

Initiated by Carlos Connio Santini

Standardization of international usage in motion-picture language may not be possible, but mutual understanding of the technical terms used in the industry, in those language areas where its principal activities are carried on, is a worthy goal. The basis for this list was contributed by the late Mr. Santini with no claim to its being definitive; in compiling it, however, he tried invariably to choose the term most generally accepted in each language. Readers' comments and additions to the current list will be welcomed.
